Career Objective

Aspiring Data Science professional with hands-on expertise in machine learning, predictive modeling, and data visualization. Passionate about transforming raw data into actionable insights using Python, SQL, and modern ML frameworks. Seeking to contribute to innovative, data-driven projects in a dynamic tech environment.

Academic Details

Bachelor of Technology in Computer Science
12th Grade
10th Grade

Projects

Drug Interaction Risk Prediction

 [Kaggle Notebook](#)

- Engineered a classification model to predict drug-drug interaction risks using patient and medication data.
- Applied feature engineering and ensemble techniques to improve accuracy and interpretability.
- Delivered actionable insights for safer prescription practices.

ESG Impact Analysis (DeepHack 2.0)

 [GitHub](#)

- Built an ESG scoring framework using NLP and sustainability metrics.
- Created interactive dashboards to visualize corporate environmental and social impact.
- Ranked among top participants in university-level hackathon.

Daily Transaction Forecasting

 [GitHub](#)

- Forecasted 30-day transactions using Prophet and regression models.
- Achieved MAE of 1140.40 with trend and seasonality decomposition.
- Provided recommendations for inventory and cash flow optimization.

Climate Change Modeling

- Analyzed global temperature and CO trends using time-series techniques.
- Predicted future climate scenarios with machine learning models.
- Visualized long-term environmental risks for stakeholders.

Coffee Sales Analytics

- Performed sales trend analysis and customer segmentation.
- Built predictive models to forecast daily revenue and peak hours.
- Designed Power BI dashboards for operational decision-making.

Website for Edugene Coaching Center

- Developed a responsive and user-friendly website using HTML, CSS, JavaScript, and Bootstrap.
- Implemented features including course listings, student testimonials, contact form, and admin panel.

Work Experience

Data Science Intern

Unified Mentor Pvt. Ltd. (2 Months)

- Contributed to data science projects focusing on coffee sales analysis, daily transaction tracking, and climate change modeling.
- Applied data analysis and machine learning techniques to derive actionable insights.
- Collaborated with a team to deliver impactful solutions for real-world applications.

Competitions Participated

MindBenders 4.0

30th September 2025

- Actively participated in K.R. Mangalam University's innovation and technology challenge. Demonstrated enthusiasm and contribution toward AI and technology.

Deep Data Science Hackathon 2.0

8th October 2025

- Recognized for outstanding skills and performance in AI-driven problem-solving at Center of Excellence - AI.

Certifications

- **Python for Beginners with Certification** – Scaler Topics (121 Video Tutorials, 16 Modules, 10 Challenges) – 27th September 2025
- **Data Science Internship Certification** (2 Months) – Unified Mentor Pvt. Ltd.

- **C++ Programming Language Certification**
- **Data Structure and Algorithm (DSA) Certification**
- **UX Designing Certification**

Professional Skills

- **Technical:** Python, SQL, C++
- **Tools & Libraries:** Pandas, Scikit-learn, Prophet, TensorFlow, Matplotlib, Seaborn,
- **Data Skills:** Data Cleaning, Data Visualization, Feature Engineering, Model Evaluation
- **Soft Skills:** Project Management, Problem Solving, Team Collaboration, Communication

Personal Details

Address	RZ-21 Subhash Park Ext., Uttam Nagar, New Delhi-110059
Languages	English (Fluent), Hindi (Native), Maithili (Native)
